SHELL

(www.shell.com)

LESSEE: SRG OKLAHOMA HOLDINGS, LLC

GUARANTOR: MSM STORES, INC., MOHAMMED MUNAF; AND MOHAMMED SHAYAN, JOINTLY AND SEVERALLY

Royal Dutch Shell PLC, commonly known as Shell, is a British-Dutch oil and Gas Company headquartered in the Netherlands and incorporated in England and Wales. The company is one of the six oil and gas “supermajors” and produces around 3.7 million barrels of oil equivalent per day. Shell is a vertically integrated company, allowing them to be active in all areas of the oil and gas industry, including exploration and production, refining, transport, distribution and marketing, petrochemicals, power generation, and trading. It also has renewable energy activities, including in biofuels, wind, energy-kite systems, and hydrogen. Shell has operations in over 70 countries, over 83,000 employees, and 44,000 Shell branded service stations worldwide. There are over 14,000 Shell branded gas stations in the United States.

Tenant has successfully operated CStores throughout the Southeast for almost 20 Years. With over 60 locations under management, they have a proven track record of maximizing profitability through streamlining operations, strategic site selection and empowering their employees to succeed. MSM Stores are looking to expand their operations in 2021. The tenant is guaranteeing the Lease with a strong personal financial statement with over \$26,116,060 in assets and a net worth of approximately \$18,204,195. Fuel distributor has a proven track record of 100 million gallons of fuel being distributed in 2020.

SHELL LAUNCHES OPEN INNOVATION STUDIO

September 14, 2020 (*Shell.us*)

Studio X, a first-of-its-kind open innovation studio powered by Shell - Open on Shell.com (NYSE: RDS), launched today with three initial products to help define the future of exploration.

Starting with three products focused on exploration and discovery, Studio X will immediately offer software tools, on-demand work, prize-winning challenges, mentorship opportunities, and more to energy innovators.

Studio X aims to usher in new era of tech advances, flexible work opportunities, and big ideas to an industry ripe with opportunity and to re-imagine the future of work in exploration.

"Studio X brings tech advances at a challenging time for exploration and the global economy," said Mauhan Zonoozy, Acting GM of Studio X. "The technology within will lead to better ways of working in the exploration field -- increasing collaboration and ultimately improving outcomes. Studio X will fuel big ideas, connect a network of global talent with remote work opportunities, empower and guide entrepreneurs and startups, and crowd source bold solutions to make the ideas of today into the industry-leading tools of tomorrow."

While technology and innovation are constantly being introduced, the ways of working in the exploration space have generally remained the same until now. Studio X will break down silos, improve outcomes, and increase collaboration, using a flexible workforce.

"Studio X was developed by Shell to reimagine the future of work in exploration," said Marc Gerrits, Shell's Executive Vice President of Global Exploration. "To meet increasing global energy demand, oil and gas will remain an element of the energy mix for decades to come. By harnessing efficiencies, embracing new technologies, and deploying digital capabilities, Studio X will be at the forefront as the exploration profession evolves."

In launching Studio X, Shell (or potentially third-party project sponsors) offers real-world projects with data to an untapped worldwide network of scientists, entrepreneurs, and tech leaders - crowdsourcing ideas and nurturing companies to usher in a new chapter in exploration.

Glencoe is a town in northern Payne County, Oklahoma. The city has recently been the site of economic growth due to positive investments in agritourism. Glencoe is located 5 miles from Lake Lone Chimney, on the border between Payne and

Glencoe is located 5 miles from Lake Lone Chimney, on the border between Payne and Pawnee counties.

Pawnee counties. Stillwater is often called one of America's most livable cities. Quality neighborhoods, excellent schools and low crime rates are hallmarks of the community, as well as the recreational and cultural opportunities you can only find in a college town. With its cost of living being 10% below the national average, Stillwater is consistently ranked among the nation's top small cities for quality of life. The city is a uniquely international community with more than 100 countries represented at Oklahoma State University. Stillwater is home to a diverse mix of business and industry, from manufacturing to advanced technology. Among its

export industries are printing and publishing, floor covering, wire products, software and food products. Oklahoma State University plays a significant part in Stillwater's overall economy with more than 20,000 students, 5,500 staff and a focus on research and technology. Stillwater is centrally located between two large metropolitan areas, Tulsa (65 miles) and Oklahoma City (60 miles). The city's close proximity to both allows its business community easy access to many markets.

LOCATION, LOCATION, LOCATION: STILLWATER WELL-POSITIONED FOR ECONOMIC DEVELOPMENT

Michelle Charles, November 15, 2019 (*Stillwater News Press*)

In economic development as in real estate, there are some things you can't change and often the key to making a deal is "location, location, location."

The Stillwater Chamber of Commerce recently hosted its annual Economic Summit with guest speakers Eric Long, research economist for economic development with the Greater Oklahoma City Chamber of Commerce, and Oklahoma State Department of Commerce Director Brent Kislung.

Stillwater is fortunate to be located within an hour of Oklahoma's **two largest metro areas and just under two hours from Wichita, Kansas**. That means 2.5 million people live within a 90 minute drive from Stillwater, Long said.

And the message was: There is work to be done but Stillwater is well-positioned for economic growth in a variety of ways, certainly in a literal, geographic sense.

Payne County is part of the 10-county Greater Oklahoma City Region that has a population of 1.52 million and a labor force of more than 765,000. Since 2005, the regional population has grown at twice the national rate.

AMERICAN AIRLINES WILL KEEP STILLWATER ROUTE

Dale Denwalt, September 17, 2020 (*The Oklahoman*)

Less than a month after American Airlines said it would halt commercial passenger service to Stillwater Regional Airport, the carrier has changed its mind.

City officials and members of Oklahoma's congressional delegation praised both the company and members of the community who reached out in a bid to save the daily flights between Stillwater and Dallas.

"Maintaining air service in Stillwater, even if it is just a few flights, is the best way to protect our community's investment," said City Manager

Norman McNickle.

"We have shown American Airlines that we truly value their partnership and, by agreeing to work with us on our upcoming flight schedule, American Airlines has shown us that they value our partnership as well," said Airport Director Paul Priegel.

American Airlines announced last month that it would suspend flights to 15 cities starting in October, when federal coronavirus relief funding expires. That funding included a mandate that air carriers continue existing routes. Their decision was also based on low advance booking numbers.
