Multi-Unit Deals Have Hawaiian Bros Saying 'Aloha' to New Midwest Markets

MATTHEW LIEDKE, JULY 25, 2023 (FRANCHISE TIMES)

Missouri-based Hawaiian Bros is continuing its Midwest expansion with new agreements for development in neighboring Iowa and Nebraska.

The QSR brand, headquartered in Kansas City, signed a **five-unit deal** with DKPM Investments Corp. for Nebraska, with four planned for Omaha and a fifth in Lincoln. The other agreement is with BraveHart Development for **10 units in several Iowa cities**, including Des Moines and Cedar Rapids.

For Hawaiian Bros, the new deals are part of a growth strategy that targets expansion in the central United States. Founded in 2018, the brand now has 38 restaurants in the Midwest and nearby regions.

"We expanded into Oklahoma and have gone as far south as San Antonio," said Grant Kreutzer, head of franchise development at Hawaiian Bros. "In 2022 we established the franchise system and it's allowed us to bring on some franchisees that are **helping us grow in new markets** that are relatively contiguous for our region."

To continue what Kreutzer described as rapid growth, the brand is seeking mid-sized to large multi-unit franchise organizations, like the **two recently signed franchisees**.

"Those who have the demonstrated track record of developing other concepts and really living and breathing the same kind of culture that we have here at Hawaiian Bros," Kreutzer said. "We really felt that from **a growth perspective**, it was important to bring on experienced operators that can have the local market knowledge."

"There's **attention toward the customer** at Hawaiian Bros. They try to make the food fast and convenient," Hodges said. "They also have great systems and software, and it's not just using technology for the sake of it—it's to be more efficient and make things **easier for the employee**."

According to Kreutzer, both franchisees fit the profile of what Hawaiian Bros is trying to attract.

The history of Midland, Texas is rich and diverse.

In 1880, the Texas Pacific Railroad began to lay tracks westward from Fort Worth at about the same time that the Southern Pacific began building east from El Paso.

Today, Midland is a thriving community in the heart of the Permian Basin oil region, which is the 2nd largest oil and gas shale in the world.

The place where the tracks met became known as Midway. Later, the name was changed to Midland. Prior to WWI, Midland was a prosperous railroad town serving the surrounding ranching community.

However, on May 27, 1923, the future of Midland would change with the discovery of oil. At 6:00 a.m., just 70 miles southeast of Midland, the Santa Rita No. 1 blew, changing the history of Midland, Texas. Today, Midland is a thriving community in the heart of the Permian Basin oil region, which is the 2nd largest oil and gas shale in the world. In fact, outside of Houston, no other area in the US plays a more important role in the nation's energy industry than the Permian Basin. Midland, Texas has been nicknamed the "Tall City" because of the impressive downtown buildings that can be seen for miles on the horizon when approaching the city. "The Sky's the Limit" has been a city motto for decades, and has been referenced by former President George W. Bush. The city is proud to be the hometown of former First Lady Laura Bush and the former home of two U.S. Presidents, George H.W. Bush and George W. Bush. Today, Midland is a thriving community, home to large international corporations, expanding family businesses, and entrepreneurs seeking growth opportunities. Our economy is growing and our residents enjoy the benefits of having the second highest personal income in the United States.

History made in Midland

STEWART DOREEN, NOVEMBER 8, 2023 (MRT)

Voters pass Midland ISD's \$1.415 billion bond

Midland ISD voters made history on Tuesday. They decidedly passed **one of the most expensive school bonds** in the history of the state. The record will show 56% of the 22,103 voters approved Midland ISD Proposition A, but the electoral history was much greater than that.

Midland ISD voters – when faced with the most significant facilities proposal in the district's history – didn't blink and continued the investment taking place in 2023 across Midland.

The **\$1.415 billion bond** was more than eight times greater than the largest bond previously passed in Midland's history (\$163 million in 2012). For the first time in at least five tries going back to 1990, Midland ISD voters green-lighted the building of a **new Midland High School**. For the first time since the 1990s, Midland ISD voters approve a major **transformation** to the district's junior high system (soon to be middle school system). For the first time in 11 years – since that \$163 million bond – Midland ISD voters approved the building of a **new elementary school**.

Midland ISD voters – when faced with the most significant facilities proposal in the district's history – didn't blink and continued the investment taking place in 2023 across Midland.

They endorsed a secondary schools plan that will **prepare the community with the growth** expected over the next decade and beyond. Here are the particulars.

- The building of two new high schools to replace Midland High and Legacy High (\$985.2 million)
- Middle school improvements (\$119 million)
- Safety, security and accessibility (\$50.4 million)
- Improvement to current facilities/deferred maintenance (\$207.5 million)
- A new elementary school in northeast Midland (\$53.3 million).

Midland projected to be the fastest-growing economy amongst mid-size cities

JASON FREUND, FEBRUARY 24, 2023 (NEWSWEST9)

The City of Midland is projected to have yet another strong economic year.

Midland was one of **five Texas cities** to have overall **growth projections** alongside Amarillo, Lubbock, Killeen and El Paso.

This comes from the Kenan Institute's American Growth Project, which ranked Midland first on a list of 100 mid-size cities in regards to potential gross domestic product (GDP) growth.

Meanwhile, Midland finished higher than other cities such as Albany, Santa Barbara and Fort Collins.

"I believe their **growth projections** are comprised of job creations and gross domestic product of the region," said Sara Harris, the executive director of Midland Development Corporation. "That is based primarily on the energy industry; we have seen significant increases in activity and oil and gas sectors due to higher price increases for commodity."

High contributions from the oil and gas industry alongside spikes in energy prices pegged **Midland's 2022** GDP at 9.4%.

While that GDP growth rate is projected to lower to 6.7% in 2023, it is still four percent higher than second place Amarillo's **2.5% GDP growth rate**.

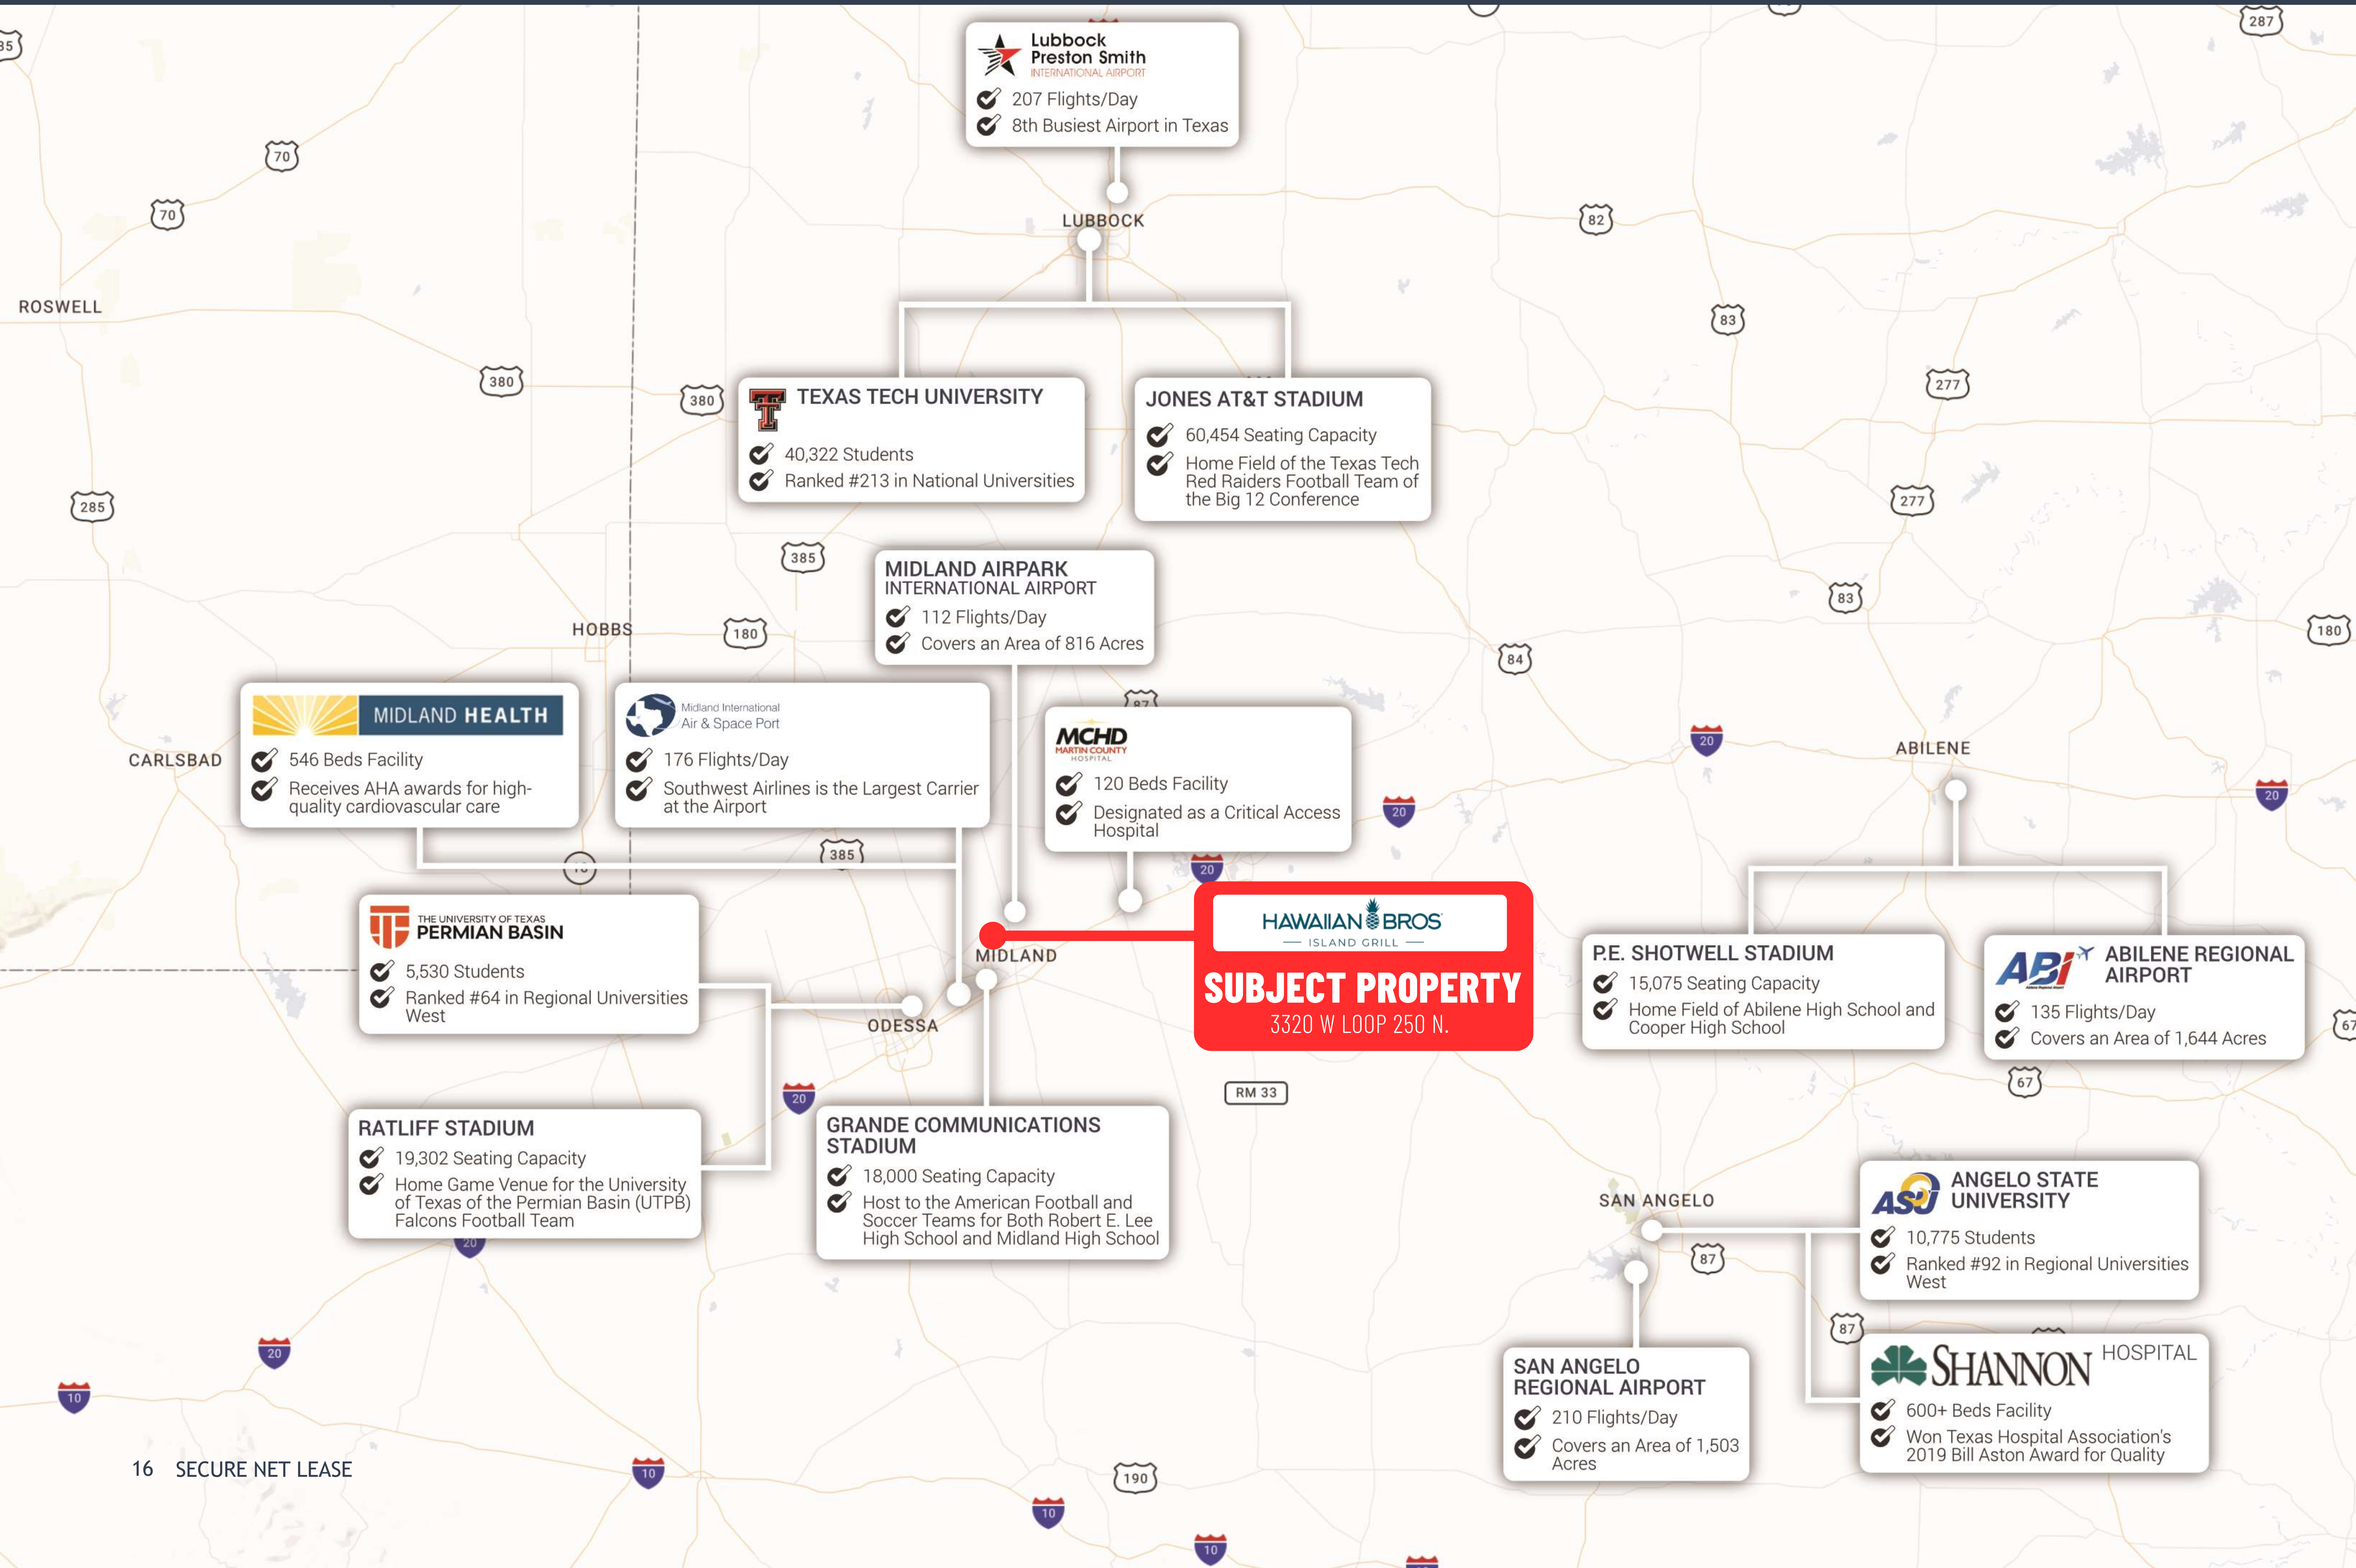

The driving force behind this **growth comes from increased prices** for West Texas Intermediate oil and overall price increases for natural gas, leading to a boom in the energy field.

HAWAIIAN BROS MIDLAND, TX

Approved by the Texas Real Estate Commission for Voluntary Use

Texas law requires all real estate licensees to give the following information about brokerage services to prospective buyers, tenants, sellers and landlords.

Information about brokerage services

Before working with a real estate broker, you should know that the duties of a broker depend on whom the broker represents. If you are a prospective seller or landlord (owner) or a prospective buyer or tenant (buyer), you should know that the broker who lists the property for sale or lease is the owner's agent. A broker who acts as a subagent represents the owner in cooperation with the listing broker. A broker who acts as a buyer's agent represents the buyer. A broker may act as an intermediary between the parties if the parties' consent in writing. A broker can assist you in locating a property, preparing a contract or lease, or obtaining financing without representing you. A broker is obligated by law to treat you honestly.

If the broker represents the owner

The broker becomes the owner's agent by entering into an agreement with the owner, usually through a written – listing agreement, or by agreeing to act as a subagent by accepting an offer of subagency from the listing broker. A subagent may work in a different real estate office. A listing broker or subagent can assist the buyer but does not represent the buyer and must place the interests of the owner first. The buyer should not tell the owner's agent anything the buyer would not want the owner to know because an owner's agent must disclose to the owner any material information the agent knows.

If the broker represents the buyer

The broker becomes the buyer's agent by entering into an agreement to represent the buyer, usually through a written buyer representation agreement. A buyer's agent can assist the owner but does not represent the owner and must place the interests of the buyer first. The owner should not tell a buyer's agent anything the owner would not want the buyer to know because a buyer's agent must disclose to the buyer any material information known to the agent.

If the broker acts as an intermediary

A broker may act as an intermediary between the parties if the broker complies with The Texas Real Estate License Act. The broker must obtain the written consent of each party to the transaction to act as an intermediary. The written consent must state who will pay the broker and, in conspicuous bold or underlined print, set forth the broker's obligations as an intermediary. The broker is required to treat each party honestly and fairly and to comply with The Texas Real Estate License Act. A broker who acts as an intermediary in a transaction:

- Shall treat all parties honestly
- May not disclose that the owner will accept a price less than the asking price
- Submitted in a written offer unless authorized in writing to do so by the owner;
- May not disclose that the buyer will pay a price greater than the price submitted in a written offer unless authorized in writing to do so by the buyer; and
- May not disclose any confidential information or any information that a party specifically instructs the broker in writing not to disclose unless authorized in writing to disclose the information or required to do so by The Texas Real Estate License Act or a court order or if the information materially relates to the condition of the property.

With the parties' consent, a broker acting as an intermediary between the parties may appoint a person who is licensed under The Texas Real Estate License Act and associated with the broker to communicate with and carry out instructions of one party and another person who is licensed under that Act and associated with the broker to communicate with and carry out instructions.
