7-Eleven to add 1,300 stores in North America by 2030

APRIL 17, 2025 (MOBILITY PLAZA)

7-Eleven is accelerating its growth strategy in North America with plans to open 1,300 new stores by 2030, according to parent company Seven & i Holdings' latest earnings presentation.

The move marks a **significant expansion** for the convenience store giant as it prepares for a 2026 initial public offering of its North American business. Incoming CEO Stephen Dacus also announced that the brand aims to **nearly double** the number of stores featuring quick-service restaurants (QSRs), increasing from 1,080 to 2,100 by the end of the decade.

The 1,300-store goal comes just months after 7-Eleven shared a four-year plan to open 600 new locations, with 500 scheduled between 2025 and 2027. That number has now been bumped up to 550, signaling a more aggressive pace of expansion in the lead-up to the planned spin-off.

If fully realized, the expansion would represent about **10% growth** over the 12,963 North American stores the brand operated as of February.

To meet its QSR growth target, 7-Eleven will need to **significantly increase** its rollout pace after 2025. With just 50 new QSR-equipped stores planned this year, the company will have to accelerate expansion to reach its goal of 2,100 locations by 2030.

Seven & i Says It's Looking at Growth in New Regions

JANUARY 9, 2025 (NACS)

Seven & i Holdings, parent company of 7-Eleven, is developing initiatives to "unlock its North American convenience-store business's potential value as well as optimal capital relations with its banking unit," the Wall Street Journal reported today.

"The retail giant said it will accelerate **expansion to new regions** to seek growth in markets worldwide. ... The company plans to complete its strategic restructuring this fiscal year to **achieve profit growth** in the coming years, it said Thursday," wrote the WSJ.

Last month, NACS Daily reported that Seven & i Holdings plans to open 500 new convenience stores in the United States and Canada through 2027.

"A company spokesman confirmed an earlier report by Kyodo News about the plan for convenience stores in North America, adding that it was part of Seven & i's strategy to **grow to 100,000 stores in 30 countries** and regions by 2030," according to Reuters.

Ikea breaks ground on new Rockwall store

APRIL 8, 2025 (HERALD-BANNER)

Set to open in the spring of 2026, the new location at 1801 E. Interstate 30 will be the ninth lkea store in Texas.

Rockwall Mayor Trace Johannesen, who spoke at the ceremony, expressed his enthusiasm for the project, highlighting that it would enhance the local infrastructure and attract visitors from East Texas and also noted that the store would contribute to Rockwall's sales tax revenue and create job opportunities for the community.

The store – a one-level, 108,875-square-foot design – is smaller than the company's typical stores but Ikea officials say it will be tailored to meet the needs of the local community.

Ben Sandoval, market manager for Ikea U.S., called Rockwall a natural fit for the company's growth and Rob Parsons, market area manager, thanked the Rockwall community and emphasized that the store marks an important step in making IKEA more accessible in Texas.

Ikea officials say the Rockwall store will employ approximately 90 people once it opens, adding to the company's existing presence in Texas, which includes stores in Frisco, Grand Prairie and Southlake. It will be part of a larger mixed-use development that will feature retail, dining, entertainment and residential spaces, including up to 485 condominium and townhome units.

Rockwall city officials and Ikea executives were on hand for the Ikea groundbreaking. The store is expected to open in the spring of 2026.

The project received approval from the Rockwall City Council last October.

Texas counties, including Rockwall, lead the U.S. in population growth

MARCH 19, 2024 (ROYSE CITY HERALD BANNER)

With a population increase of 6.5%, Rockwall is again is one of the fastest-growing counties in Texas, according to recent estimates from the U.S. Census Bureau.

Kaufman County led the list with a **7.6% increase** that brought its population to more than **185,000**, Census data shows. Rockwall followed closely behind. Population increases across the southern U.S. were **largely** due to people relocating from other parts of the country, Census officials said. On average, counties in the **South experienced faster growth in 2023 than in 2022**.

Six out of the 10 fastest-growing counties in the U.S. from 2022 to 2023 are in Texas.

"Domestic migration patterns are changing, and the impact on counties is especially evident," said Lauren Bowers, chief of the Census Bureau's Population Estimates Branch, in a Thursday statement.

Texas also holds eight out of the 10 counties across the country that added the most residents from **2022 to 2023**. Harris, Collin and Montgomery counties led the pack.

Harris County added **53,788 residents**, more than any other county in the U.S. With nearly 5 million total residents, it's now the third most populous county in the country.

Harris also saw the **second-highest gains** from international migration of all counties nationwide.

Collin, Denton and Tarrant counties in the Dallas-Fort Worth area also had significant gains – bringing in tens of thousands of new people. Denton is now the seventh county in Texas to surpass 1 million residents.

City council gives OK for Ikeaanchored 65-acre development

KENT MILLER, OCTOBER 10, 2024 (ROYSE CITY HERALD BANNER)

A 65-plus acre mixed-use development anchored by Swedish furniture company lkea moved one step to fruition on Monday.

When the Rockwall City Council on Monday narrowly approved a zoning change from commercial district to a planned development district for commercial district land uses. Council members approved the zoning change by a 4-3 vote. Final approval will likely come at the council's next scheduled meeting on Oct. 21 after a second reading required by state law.

The proposed project would also include other retail, restaurants and entertainment aspects as well as high-density multi-family residential with as many as 485 condominium and townhome units.

In most cases, the **second** reading is just a formality unless a member decides to change their vote one way or the other. Notably, though, with a second reading and vote, there is no public hearing and **no opportunity** for the public to give additional input.

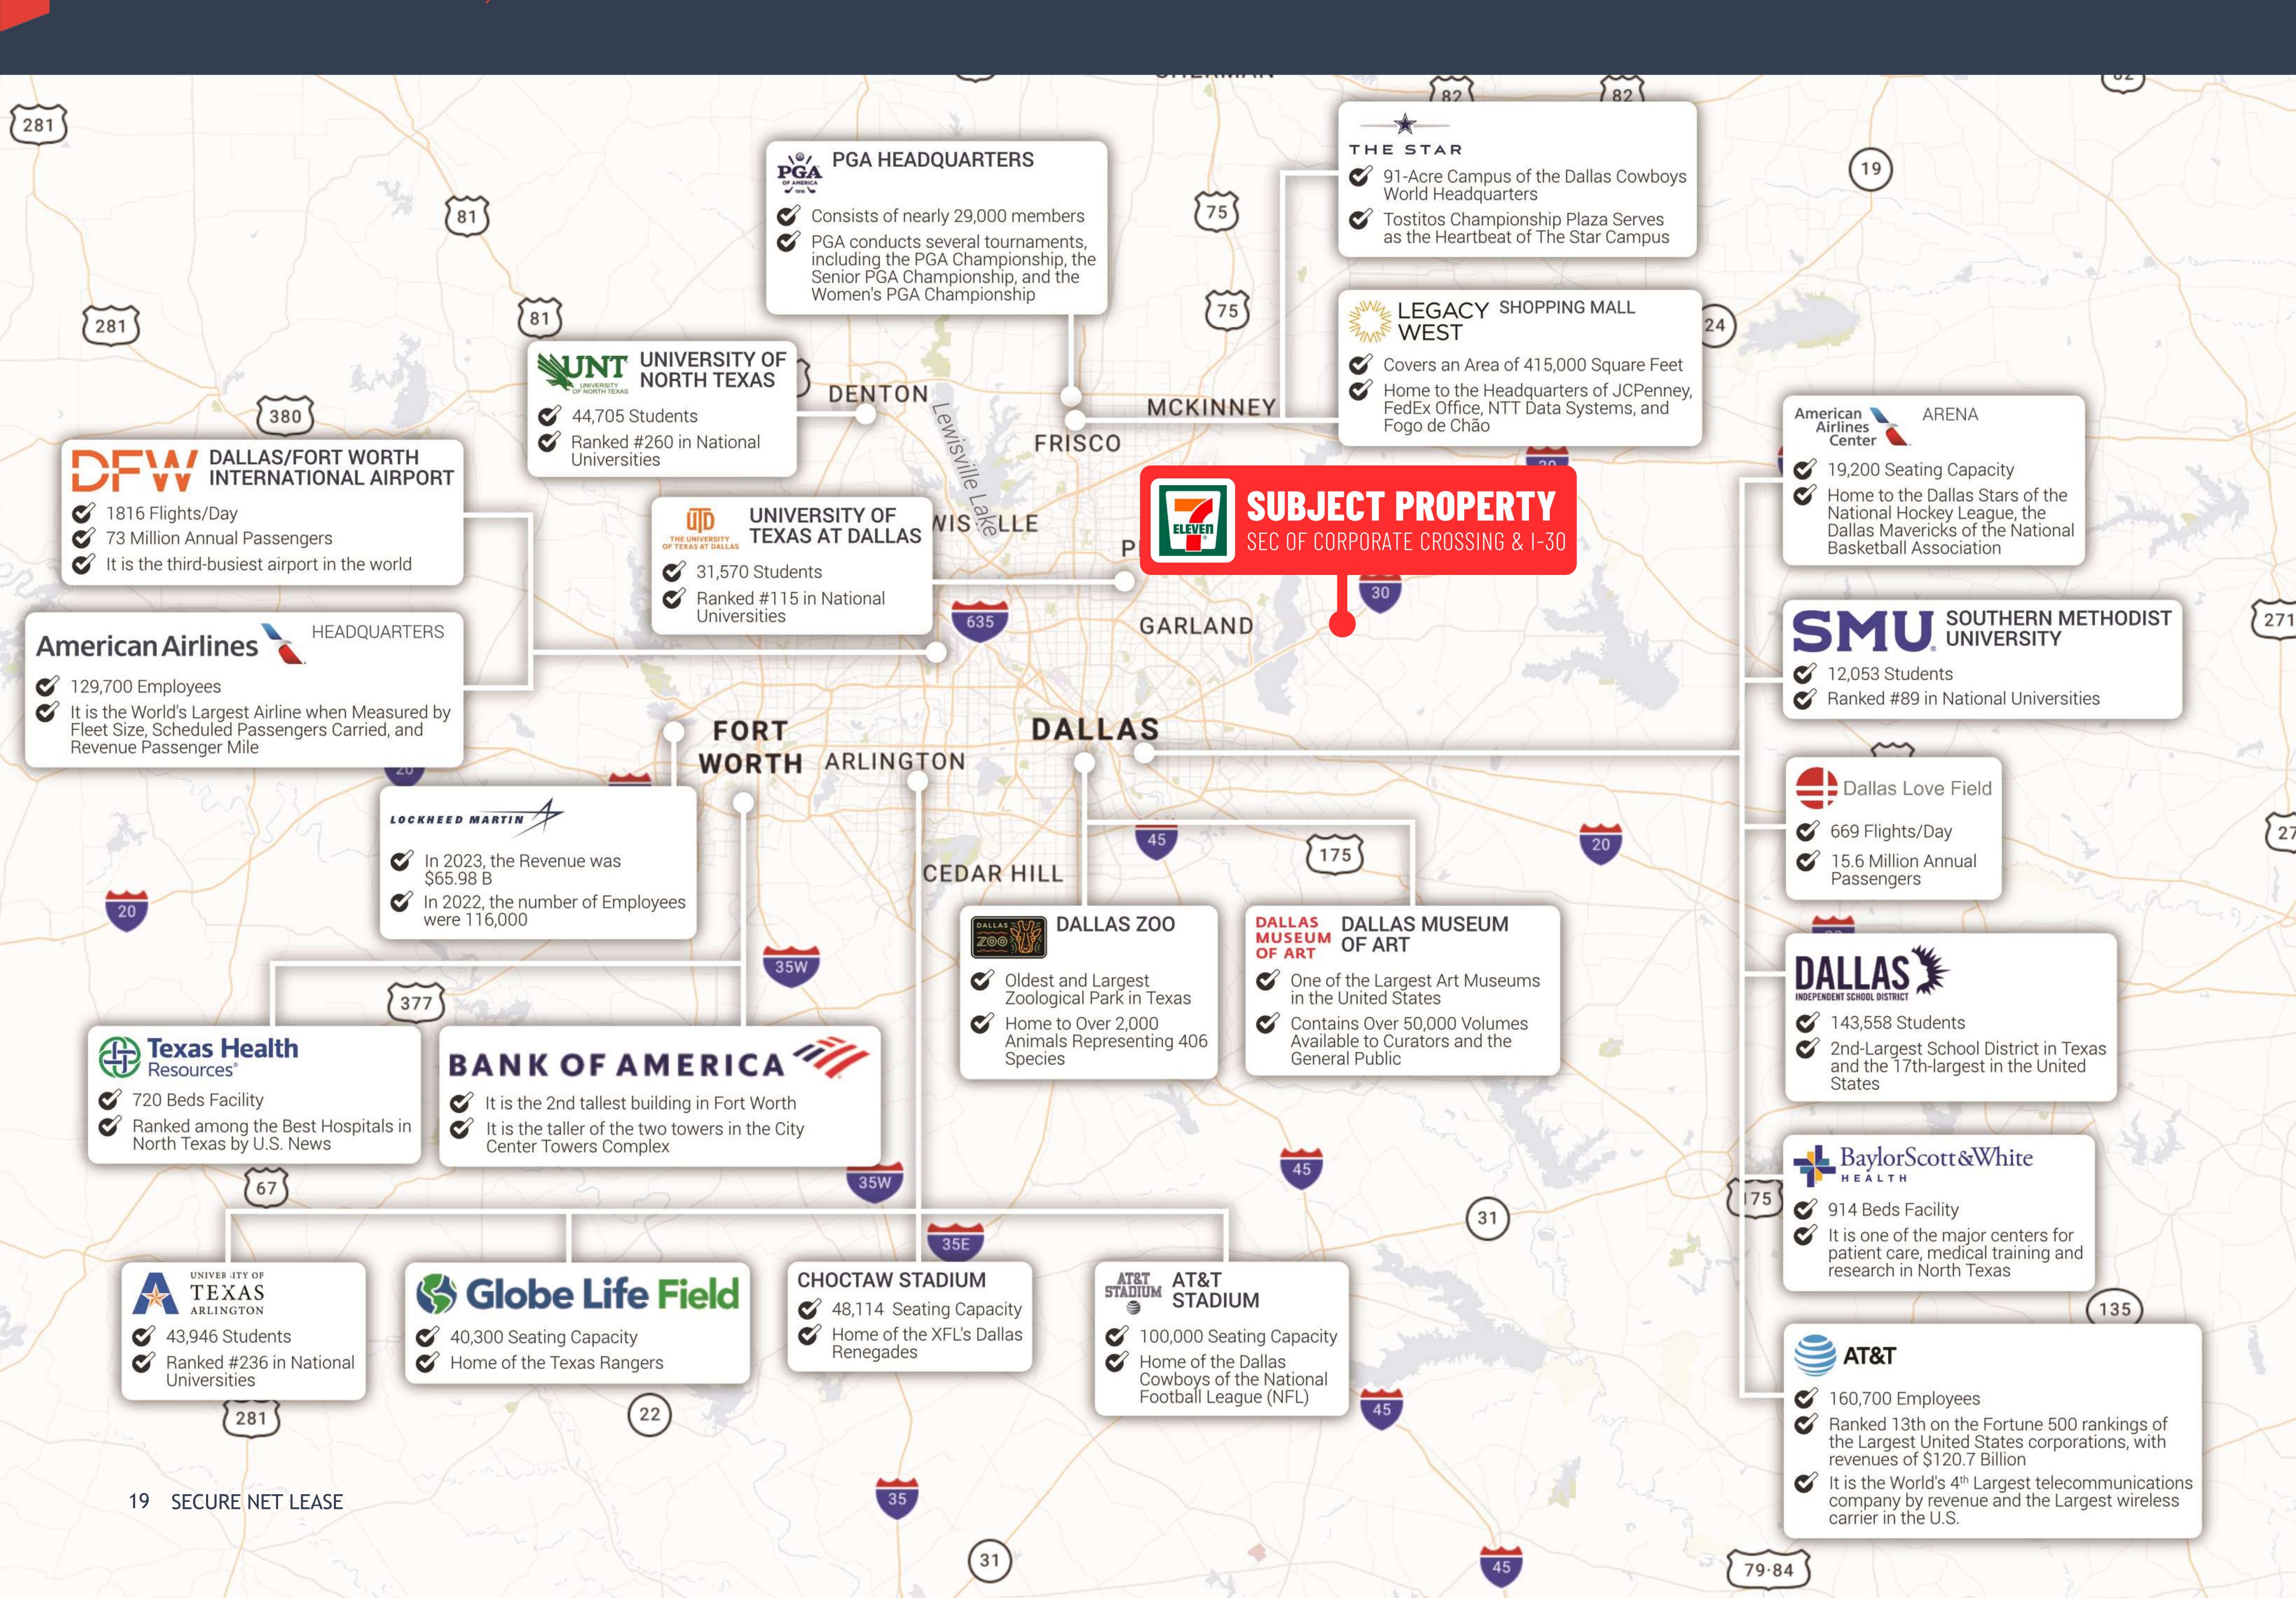

Voting for the **zoning change** were councilmen Cedric Thomas, Mark Moeller and Dennis Lewis along with Mayor Trace Johannesen. Clarence Jorif, Anna Campbell and Tim McCallum voted against the change.

The proposal was originally intended to come before the council during the Sept. 24 meeting but was sent back to the **planning and zoning** commission for consideration after changes were made by the applicant for the project.
